

AAP FOUNDATION

WHAT IS PERIODASH?

PeriodDash is the AAP Foundation's annual virtual 5K that brings together periodontists, colleagues, students, and supporters to:

- Raise awareness of periodontal and peri-implant diseases.
- Promote the importance of periodontal health and prevention.
- Celebrate the professionals dedicated to keeping gums and smiles healthy.

Why Periodontal Health Matters

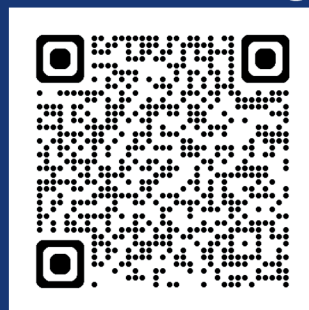

- Periodontal disease affects nearly half of U.S. adults over 30.
- Left untreated, it can lead to tooth loss and is linked with systemic conditions like diabetes and heart disease.
- Periodontists are the dental professionals specially trained to prevent, diagnose, and treat these diseases.

**Every PeriodDash starts
with a local team.**

**Join Us
SEPT.18-OCT.25**
